PROFESSIONAL EXPERIENCE

Goldman Sachs
Economist

New York, NY
June 2020 — July 2022

- Published research reports developing company views on Covid-19, inflation, labor markets, and other economic topics
- Developed high-frequency tools to track and effectively summarize the economic recovery from Covid-19
- Communicated company views to investors, policymakers, and the media
- Co-authored reports on racial equity, with one raising \$10bn in funding for the program “One Million Black Women”

Federal Reserve Bank of Philadelphia
Research Analyst

Philadelphia, PA
May 2018—May 2019

- Analyzed the impact of fintech firms on traditional markets with a focus on community banks
- Explored the characteristics and behavior of consumers who substitute credit card debt for personal loans
- Presented work to top executives at the bank including President Pat Harker who sits on the FOMC
- Utilized SAS and SQL to clean and analyze datasets with over 200 variables and hundreds of millions of observations

Center for Advanced Infrastructure and Transportation
Research Assistant

Piscataway, NJ
April 2017—May 2018

- Led a paper that was published and presented at the Joint Rail Conference 2018 in Pittsburgh
- Awarded second place in a national undergraduate research competition at the 2017 AREMA Conference in Indianapolis
- Cleaned big data through literature reviews, data memos, and exploratory data analysis for a fortune 500 company
- Trained and mentored new undergraduates on how to navigate literature reviews and data analysis

ACTIVITIES AND ORGANIZATIONS

Rutgers Federal Reserve Challenge
Presenter

New Brunswick, NJ
April 2018—November 2019

- Won the New York regional championship defeating 32 other teams in a debate on current monetary affairs
- Achieved second place at the national championship judged by Board of Governors economists
- Coordinated with Rutgers Economics faculty on a bi-weekly basis to schedule practice pitches and lectures

Institute for Domestic and International Affairs
President

New Brunswick, NJ
April 2017—May 2019

- Developed policy for the organization’s 120 members regarding best practices at Model U.N. conferences
- Mentored over 100 high school students in total on public speaking and international relations
- Published a forty-page policy brief on the financial crisis through the lens of the European Central Bank

Quantitative Finance Club
Statistics/Economics Chair

New Brunswick, NJ
February 2018 - May 2020

- Co-founded the Quant Challenge where over 100 students pitch trading strategies to Susquehanna Investment Group
- Taught college students about practical statistics and econometrics for use in the financial services industry
- Coordinating with industry leaders about the best practices for preparing undergraduates for quantitative finance
